## U-Bolts

If you need U-bolts Please Fill out and fax back  
We manufacture U-bolts from 3/8 up to 1-1/2" Bar Stock

### How to order you bolts

1. Determine if your U bolts are Round, Square, or Semi-round Top
2. Measure C - Distance from top of U bolt to the bottom of the leg
3. Measure B - Width of U-bolt from inside to inside
4. Measure A - Diameter of Rod (Available rod sizes are 7/16, 1/2, 9/16, 5/8, 3/4, 7/8, 1", 1-1/8", 1-1/4 and 1-1/2")
  - Ninety percent of the time the easiest way to determine the diameter is to put a socket on the nut
  - 11/16 socket = 7/16 rod
  - 3/4 socket = 1/2 rod
  - 13/16 or 7/8 socket = 9/16 rod
  - 15/16 socket = 5/8 rod
  - 1-1/8 or 1-3/16 socket = 3/4 rod
  - 1-5/16 socket = 7/8 rod

### U-bolts:

Shape: \_\_\_\_\_ Quantity required: \_\_\_\_\_

Length of U-bolt inside (C) \_\_\_\_\_

Width of U-bolt inside (B) \_\_\_\_\_

Diameter of Rod (A) \_\_\_\_\_

How much thread was show past nut? \_\_\_\_\_
